Saucy Soirée: Organic Soup Kitchen Fundraiser

*Organic Soup Kitchen will hold dinner fundraiser and charity auction
to raise money for equipment expansion and new ingredients*

SANTA BARBARA, January 26, 2023 – Local nonprofit Organic Soup Kitchen will host an upcoming event to raise funds for new kitchen equipment and new ingredients. The soirée will take place the evening of March 25, 2023 at Hotel Santa Barbara, and will include dinner and a charity auction. Attendees will sample several premium Organic Soup Kitchen recipes, including a new concoction to be unveiled at the event.

Organic Soup Kitchen will serve some of its most popular soups, including:

Coconut Curry Lentil: The bright and savory flavor of curry is the perfect complement to deep, earthy lentils and delicious shiitake mushrooms.

Tuscan White Bean & Kale: A Tuscan-style soup brimming with Northern white beans, vegetables, farm-picked kale, and fresh herbs and spices.

Rustic Split Pea: Organic split peas are accompanied by a plethora of fresh vegetables, spices, and herbs and simmered in a rich and creamy broth.

One never-before-released mystery soup will make its debut at this event.

Organic Soup Kitchen provides nutritional meals and food security to low-income seniors and people with chronic illnesses or cancer. The organization prides itself on creating quality meals that are both healthy and delicious.

“Each soup contains at least 15 ingredients that cover the vitamins and minerals necessary to boost one’s immune system,” says Jennifer Hyle Hale, Development and Communications Director. “Each week, fresh small batch soups are made in our 2000 square foot kitchen, so our recipients are benefitting from high-quality meals to help them recover from various health issues.”

Reservations are required, and can be obtained on Organic Soup Kitchen’s [website](#), for a \$50 entry fee. The event will open at 5PM, and the charity auction will begin at 8PM. The funds raised will contribute directly to the purchase of new equipment to improve and expedite the food preparation process, as well as giving the kitchen access to some new, tasty ingredients.

ABOUT ORGANIC SOUP KITCHEN:

Organic Soup Kitchen has been providing nutrition and food security to the elderly and those with cancer or chronic illnesses since 2009. Since its founding, they have served over 1 million bowls of soup to recipients in Santa Barbara, Goleta, Summerland, Carpinteria, and Santa Ynez Valley.
